

# Tacky Traxx™ Cleanroom Sticky Mat Frame

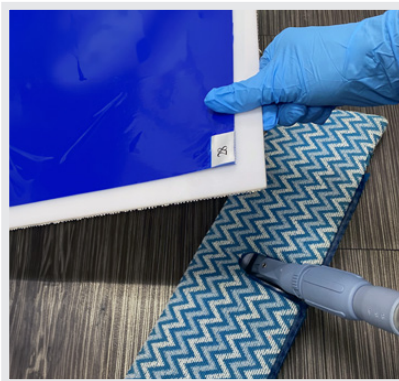

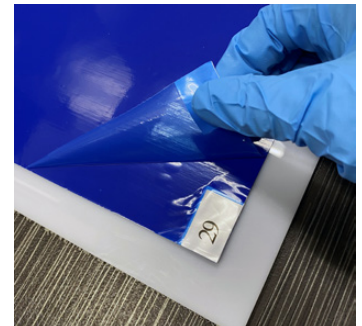

## Economical Cleanroom Sticky Mat Frames

### Description

Tacky Traxx™ Cleanroom Sticky Mat Frames are an indispensable tool for contamination control. Made from durable plastic, these economical frames provide a designated area for your cleanroom sticky mats, allowing you to effortlessly clean underneath and move them to various sections of your facility as needed.

Crafted from lightweight yet robust polystyrene, the Tacky Traxx™ Cleanroom Sticky Mat Frame can withstand the rigors of daily use in demanding cleanroom environments. Its non-skid mesh backing provides unwavering stability, preventing unwanted movement and ensuring it remains firmly in place, even in high-traffic areas.

### *Enables Full-Floor Surface Disinfecting*

With a simple lift of the frame, you gain access to the floor beneath, allowing for thorough surface disinfecting. This meticulous attention to detail ensures that your cleanroom entry areas remain immaculate, meeting the most stringent standards.

### Features & Benefits

- Tacky mat frame can be easily lifted to allow cleaning underneath.
- Provides a designated area for your cleanroom sticky mats
- Enables tacky mat to be moved to various areas of the facility
- Lightweight and durable polystyrene
- Non-skid mesh backing
