Friendly Green™ Delicate Task Wipers

Friendly Green™ are environmentally friendly lab wipes made from 100% recycled paper (at least 80% post consumer). They come packaged in recycled and biodegradable boxes, making them the complete ecologically friendly wipe option. Ideal for optics and other sensitive surfaces, friendly green are made of single-ply, low linting, absorbent, and soft material.

Friendly Green™ lab wipes are excellent for light duty applications and are used in a variety of industries. Since they are low linting and low in chemical extractables, they'll leave surfaces extremely clean.

Eco-friendly lab wipes
