

Tacky Traxx™ PVC Mat Frames

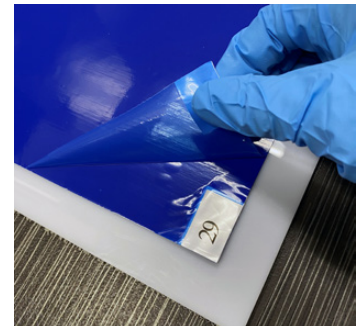

Economical Cleanroom Sticky Mat Frames

Description

Tacky Traxx™ PVC Cleanroom Sticky Mat Frames are an indispensable tool for contamination control. Made from durable PVC, these economical frames provide a designated area for your cleanroom sticky mats, allowing you to effortlessly clean underneath and move them to various sections of your facility as needed.

Crafted from lightweight yet robust PVC, the Tacky Traxx™ PVC Cleanroom Sticky Mat Frame can withstand the rigors of daily use in demanding cleanroom environments. Its non-skid mesh backing provides unwavering stability, preventing unwanted movement and ensuring it remains firmly in place, even in high-traffic areas.

Enables Full-Floor Surface Disinfecting

With a simple lift of the frame, you gain access to the floor beneath, allowing for thorough surface disinfecting. This meticulous attention to detail ensures that your cleanroom entry areas remain immaculate, meeting the most stringent standards.

Features & Benefits

- Tacky mat frame can be easily lifted to allow cleaning underneath.
- Provides a designated area for your cleanroom sticky mats
- Enables tacky mat to be moved to various areas of the facility
- Lightweight and durable PVC
