

UDDERLY GOOD WIPES

Udder and Teat Prep Wipes for Cows, Goats, Sheep, and Llamas

Udderly Good Wipes are pre-milking wipes containing 70% USP grade Isopropyl alcohol and purified water which are used for convenient and efficient cleaning of the udders. These multi-purpose wipes can also be used for cleaning skin abrasions and wounds, or prior to giving shots or inoculations.

Udderly Good Wipes are conveniently supplied in re-sealable canisters and vacuum sealed refill packs.

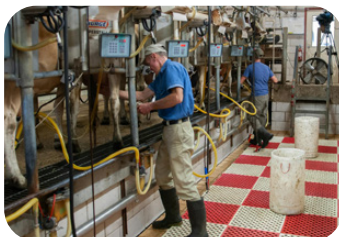

Features and Benefits:

- Fast cleaning and fast drying of teats
- One step cleaning and treating
- Convenient-easy to use "pop-up" dispensing canisters.
- Small/portable enough to carry around, economical enough to leave one at every station.
- Tough yet soft wipe material that is very low linting and resists tearing.
- Helps prevent bacterial build-up that can cause infections.
- 6" X 6" wipes, the ideal size for the job of cleaning teats and udders
- 150 wipes per canister of an industrial quality non-woven fabric
- Soft, textured fabric resists tearing
- Made with top quality ingredients from professional industrial sources.
- Chemistry is 70% IPA & 30% DI Water.
