## USP 797/800 Fast Facts:

### WIPING:

Floors, walls, ceilings, shelving, hard surfaces, contaminated gloves, and supplies removed from shipping cartons are to be wiped with 70% Sterile Isopropyl Alcohol.

### GLOVES:

- Only use gloves labeled as ASTM-tested chemotherapy gloves.
- Use powder-free gloves
- Avoid gloves with defects, pin-holes or weak spots.
- Wear two pairs of ASTM-tested gloves when compounding, administering, managing a spill, and disposing of Hazardous Drugs. For sterile preparations, only the outer glove needs to be sterile. Wear the inner glove under the gown cuff and the outer glove over the cuff. Place gloves with long cuffs over the cuff of the gown to protect the wrist and forearm.

### APPAREL

- Wear disposable gowns that have been tested to resist permeability by HDs and will protect the individual from contact of any HD's.
- Wear garments that cover the head, sleeves, and shoes.
- Eye and face protection shall be worn when handling HD's outside an engineering control.
